

Company Profile

BADA ELECTRONICS SDN BHD (1281455-T) is located in IOI Business Park, building smart home systems and selling FOFU brand products.

FOFU SMART-intelligent life mainstream brands, using intelligent hardwareInternet cloud services, such as artificial intelligence (AI) and robottechnology, efforts to build an intelligent work, life and learningenvironment.

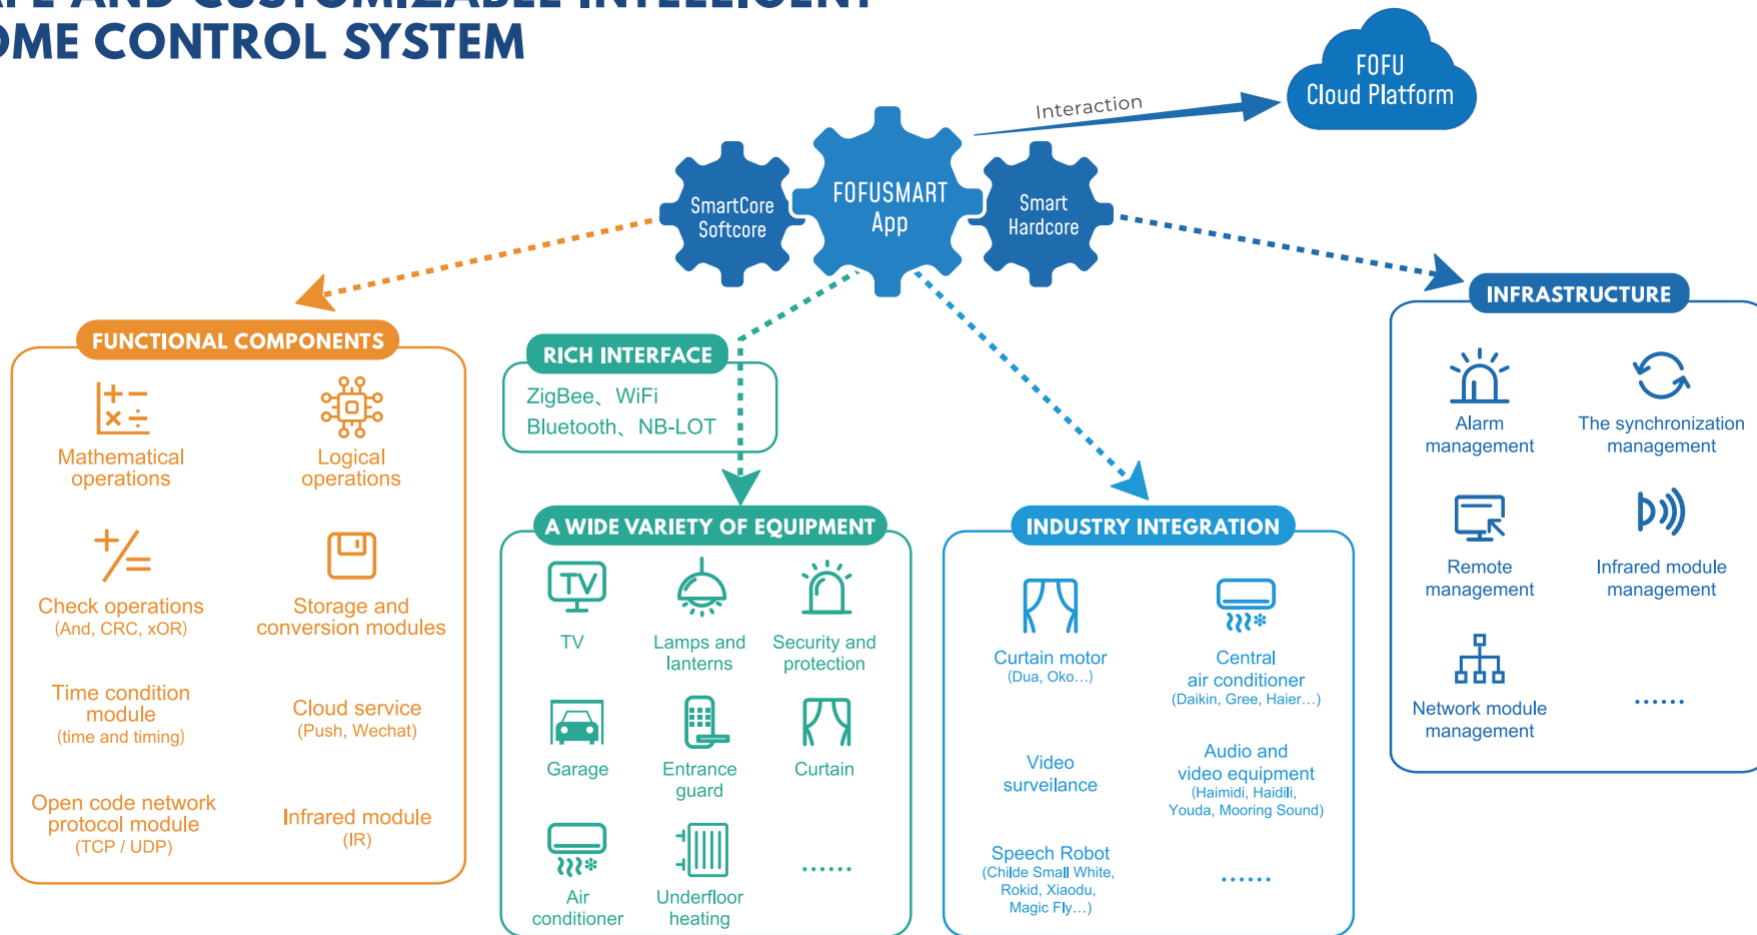

We let people in the intelligence technology to create a safeconvenient and green living environment, enjoy the technology bring therelaxed,comfortable and pleasant life.

FOFU SMART charm lies in the fact that we have not only solved theautomatic controlofvarious application scenarios more scenes customizeduser friendly graphical control interface.We firmly believe that the user isthe main body of intelligence.We are always around a safe, comfortable.extremely brief four concept design, quality products, we insist on a smarttechnology and design charm to reform the living life.With a humble, pragmatic, rigorous and elegant attitude, FOFU SMARTprovides reliable and superior intelligent solutions to the world. Meanwhile.it makes use of the interconnected FOFU SMART cloud open platform toshare the service capabilities of intelligent cloud platform with partnersand jointly build the cloud ecology of the Internet of things.

Address: IOI Business Park, Persiaran Puchong Jaya Selatan, Bandar Puchong Jaya, 47170 Puchong, Selangor.

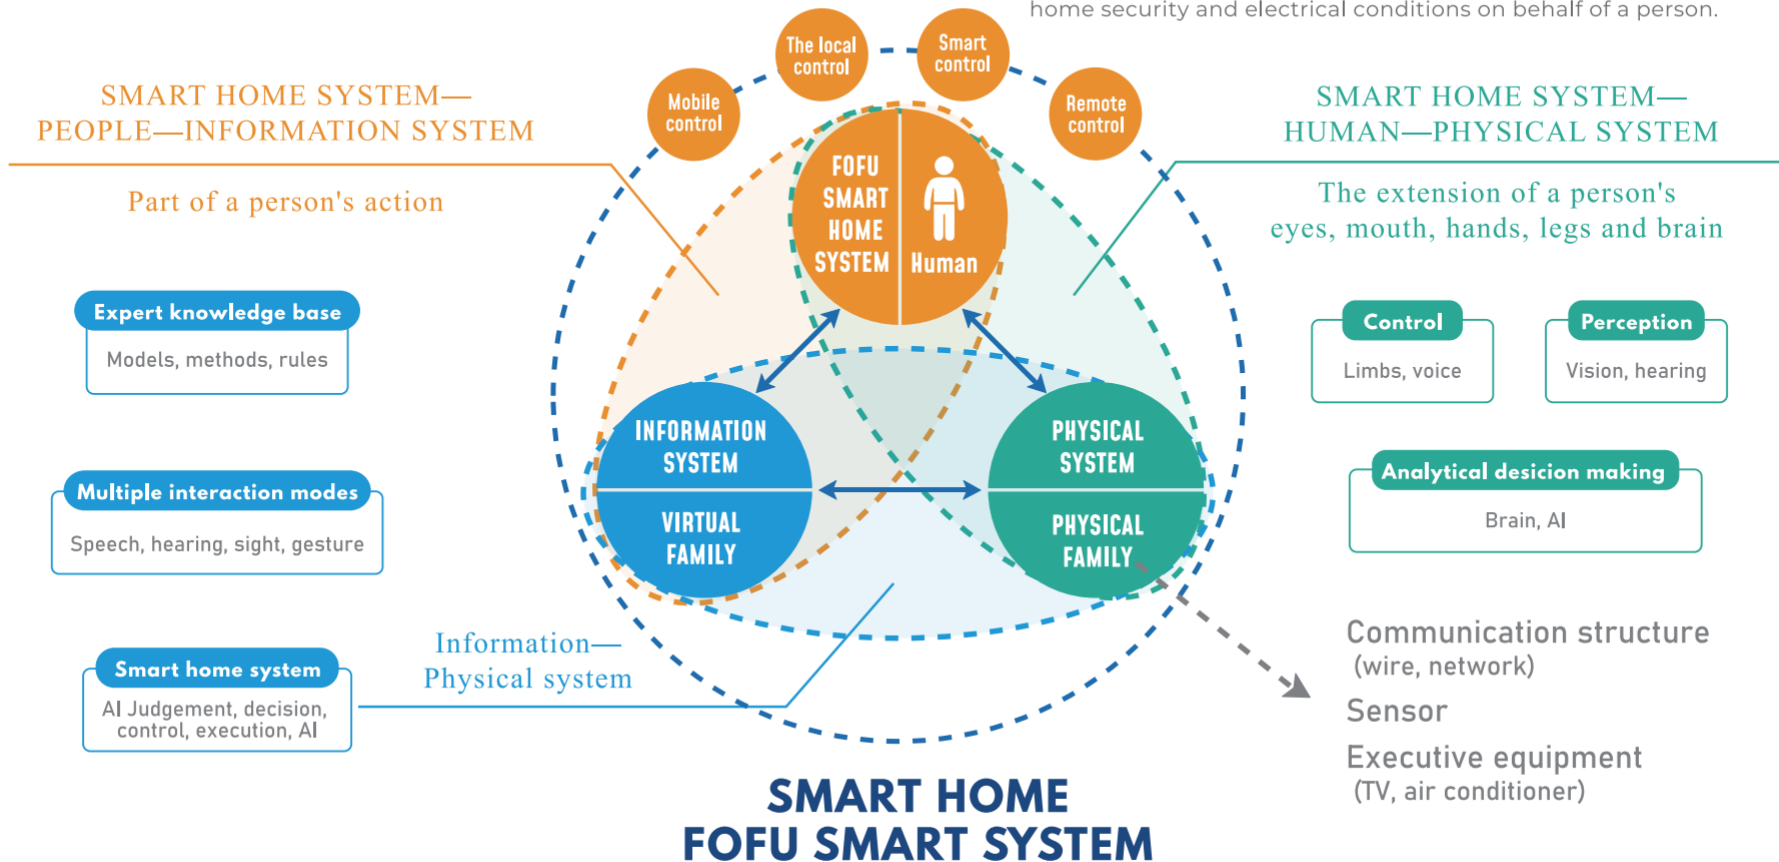

SAFE AND CUSTOMIZABLE INTELLIGENT HOME CONTROL SYSTEM

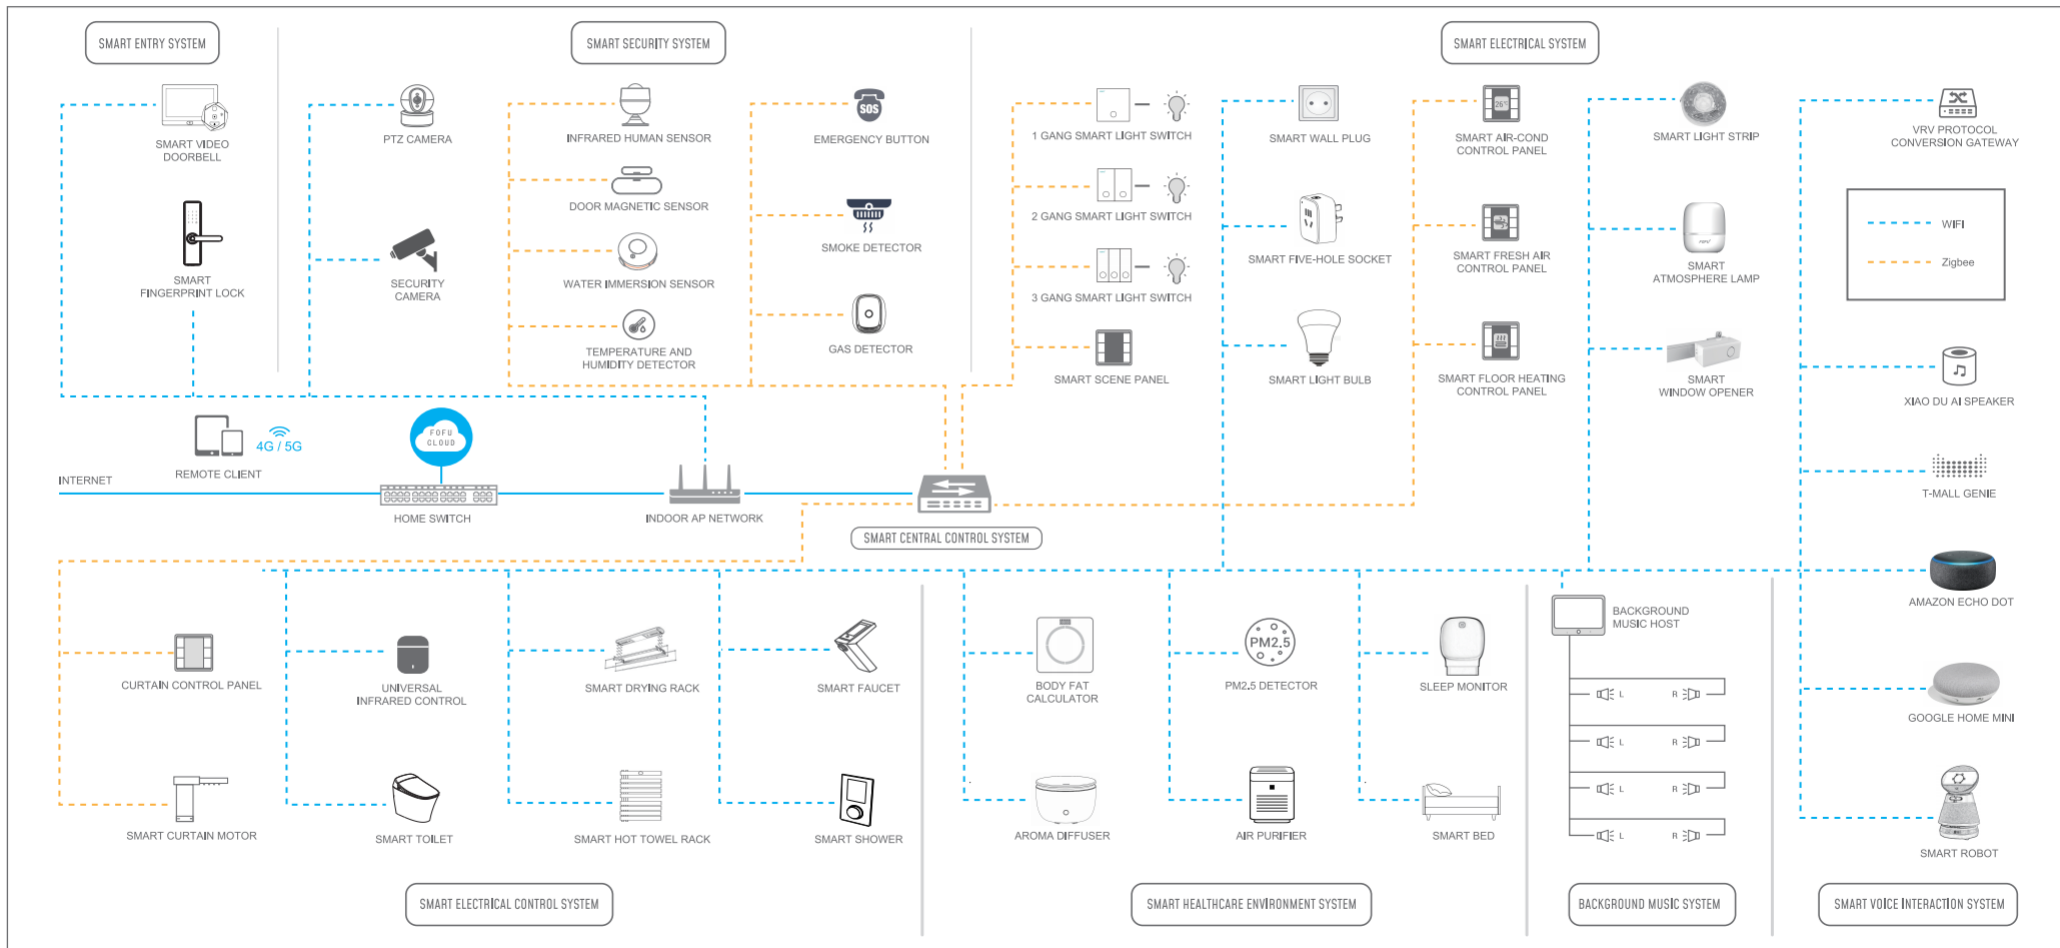

FOFU SMART HOME SYSTEM MODEL

FOFU SMART smart home reduces people's repetitive labor, monitor home security and electrical conditions on behalf of a person.

FOFUSMART SMART HOME SYSTEM TOPOLOGY DIAGRAM

PLAN TO INTRODUCE

FOFU SMART smart home allows users to conduct comprehensive management and control of lighting appliances and other electrical equipment in the home through the APP software of mobile phone or tablet PC, and also provides health environment monitoring system, security system, background music, door and window control system and intelligent interactive system. Achieve high integration of automatic home control environment. In addition, it has a background cloud server for high-speed data function calculation, providing users with the best home environment control scheme at any time. We hope that life is more convenient, we are creating a secure comfortable, personality quality of home life.

1. INTELLIGENT HOUSEHOLD ENTRY SYSTEM

Just replace the original position of the traditional door lock with FOFU SMART smart door lock, and each door lock USES advanced Wifi for wireless communication, so as to achieve functions such as entry permission allocation, door information retrieval, linkage scene and remote door opening.

2. INTELLIGENT SECURITY SYSTEM

Compared with the traditional security system, it can be linked with the FOFU SMART control system for remote management, automatic linkage equipment, automatic device processing and other functions. It can be linked with gas, smoke, water valve, window slider and other sensors for real-time processing and send alarm information to users' mobile phones to protect family security in real time.

3. INTELLIGENT ELECTRICAL SYSTEM

Just replace the original position of the traditional switch with the FOFU SMART intelligent switch, and each switch adopts the advanced Zigbee wireless communication to realize the functions of multi-control, scene, delay, dimming, master switch and so on.

4. INTELLIGENT ELECTRICAL CONTROL

Enter wall type and scattering infrared smart socket, forwarding of home appliance control system, control of electric kettle, desk lamp, TV, hanging air conditioning, projectors and other small home appliance equipment, dryer, hot towel rack, intelligent, smart and intelligent shower bath crock, toilet adopts advanced intelligent faucet Wifi wireless communication, in order to realize the scene linkage, automation, master switch, etc.

5. INTELLIGENT HEALTHY ENVIRONMENT SYSTEM

FOFU SMART intelligent health system includes temperature and humidity environment, methanol, methane, CO, CO₂, PM2.5 air quality detection and surveillance of aromatherapy machine, air purifier, sleep with, and open the window, such as intelligent zero gravity bed upload FOFU SMART cloud server to the data, FOFU SMART cloud computing function will give users the best air quality control, sleep, and linkage with FOFU SMART overall system, realize automatic close the window, rain insolation automatically closed the curtain, and other functions.

6. INTELLIGENT BACKGROUND MUSIC SYSTEM

It provides linkage with FOFU SMART intelligent control system to realize intelligent control of whole house equipment, scene control, voice control and other functions.

7. COMPATIBILITY CONTROL

FOFU SMART has a variety of patent protocol devices, which can be used for docking control with central air conditioning (such as Daikin, Hitachi), floor heating, fresh air system, etc., and open the protocol interface, so as to be compatible with more than 90% of the controllable household equipment in the market.

8. INTELLIGENT INTERACTIVE SYSTEM

It provides linkage with FOFU SMART intelligent control system to realize intelligent control of whole house equipment, personal health data interaction, whole-process voice man-machine interaction, and more natural interaction: two-way video | independently follows | remote companion; More intimate care: remote consultation for health diagnosis and treatment | drug recommendation; More detailed reminder: intelligent reminder | environment monitoring | weather warning.

FOFU SMART FULL SCENE EXPERIENCE

REMOTE CONTROL OF ALL APPLIANCES

Use your phone, IPAD or computer to remotely switch on and off all electrical appliances in your home. The heart is convenient and you don't have to worry about missing a bunch of remote controls anymore.

FUNCTION AS YOU WISH, ONE-CLICK CONTROL

Different application scene Settings, such as: one-click sleep scene, one-click reception scene...Truly experience the convenience and pleasure of technology.

24 HOURS REAL-TIME VIDEO INFORMATION

You can also view the real-time screen of your home outside, check the children, the elderly, the air conditioner, home appliances, security and other situations, but also real-time chat.

24 HOURS FULL TIME SERVICE

Real-time air quality data, automatic ventilation to protect the health of your family, to help you share water the flowers, feed the fish, clean the house and so on.

To wake me from my sleep.

07:00

Can't hear the alarm clock.

- ☉ The bedroom light slowly lit up.
- ☉ The curtains slowly opened.

Bedtime for children.

20:00

The child went to bed after doing his homework.

- ☉ The child's house lamp slowly went out.
- ☉ The auxiliary light slowly went out after the child fell asleep.

Go to work.

08:00

The kids go to school, we go to work, we press the "safety" button before going out and everything is left to the FOFU SMART home control system.

- ☉ All the lights turned off slowly.
- ☉ The curtains were drawn slowly.
- ☉ The garage light comes on, then slowly goes off as you pass.
- ☉ Security system activated.

Home theater, time for two.

20:30

Choose your favorite movie, set the movie room as the stage effect, start the wonderful performance, all this as long as you press the "movie" button...

- ☉ The soft music start.
- ☉ The light slowly becomes soft.
- ☉ Wonderful movie begins.
- ☉ The curtain opened slowly.
- ☉ Elway opens it.

Children come home from school.

16:30

Contact the security system on your way home

- ☉ The garage lights were on.a
- ☉ The curtains slowly opened.
- ☉ It is not necessary for you to fumble for the switch of a lamp. As you approach it, a stream of soft light lights up and goes out as you pass.
- ☉ You need some light music to play slowly.

Halftime.

21:15

That's wonderful. Take a break...

- ☉ Film pause.
- ☉ The light slowly turned on.
- ☉ The hallway and kitchen lights were on.
- ☉ I'd like some coffee for dessert.
- ☉ The movie continued, the lights dimmed and continued to enjoy.

Home theater, time for two.

18:30

Having dinner with the whole family is a very happy, romantic thing to do. Start the "dinner" mode.

- ☉ The restaurant lights are on.
- ☉ The kitchen, the hallway and other lights gradually dim to achieve the energy-saving mode.
- ☉ The curtains close slowly.

Family bedtime.

22:30

Press "Sleep" mode...

- ☉ All the lights are dimming.
- ☉ Air conditioning into energy-saving mode.
- ☉ The "security" system turns on automatically.

SMART HOME SMART SECURITY

SECURITY FINGERPRINT | LOCK SECURITY ENTERPRISE

HOME INTERNET PASSWORD FINGERPRINT LOCK
Multiple ways to open doors | Linkage camera
Biometric fingerprint identification | Mobile message alert

SMART ELECTRONIC DOORBELL

1080P | Ultra-Low Power Consumption
Super Long Standby | Quick start and stop
Remote Monitoring | Caller Calls

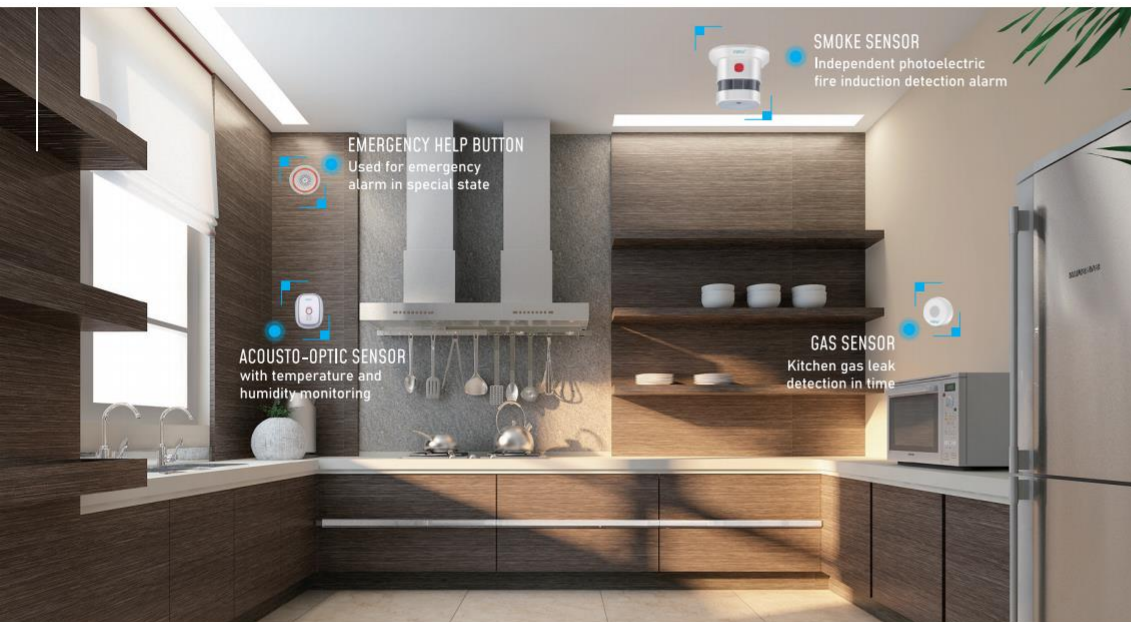

FOFU SMART DOOR VIEWER

Cloud Face Recognition | Human Body Sensor Alert
Built-in electronic doorbell | Wireless WIFI
HD Infrared Night Vision | Low Power Consumption range

KITCHEN SAFETY

REST ASSURED

GUARDIAN FAMILIES | BELIEVE IN THE POWER OF BRANDS

WATER IMMERSION SENSOR

Leave it where you want it | Long-distance RF communication
Contact flood inspection | IP67 waterproof / dustproof

GAS SENSOR

Sensitive and reliable | High decibel alarm alert
CCCF certificate

SMOKE SENSOR

High decibel alarm | Interconnect alarm
360 degree smoke detection | CCF certificate

ACOUSTO-OPTIC ALARM

Sound and light alarm
With temperature and humidity monitoring

MANIPULATOR

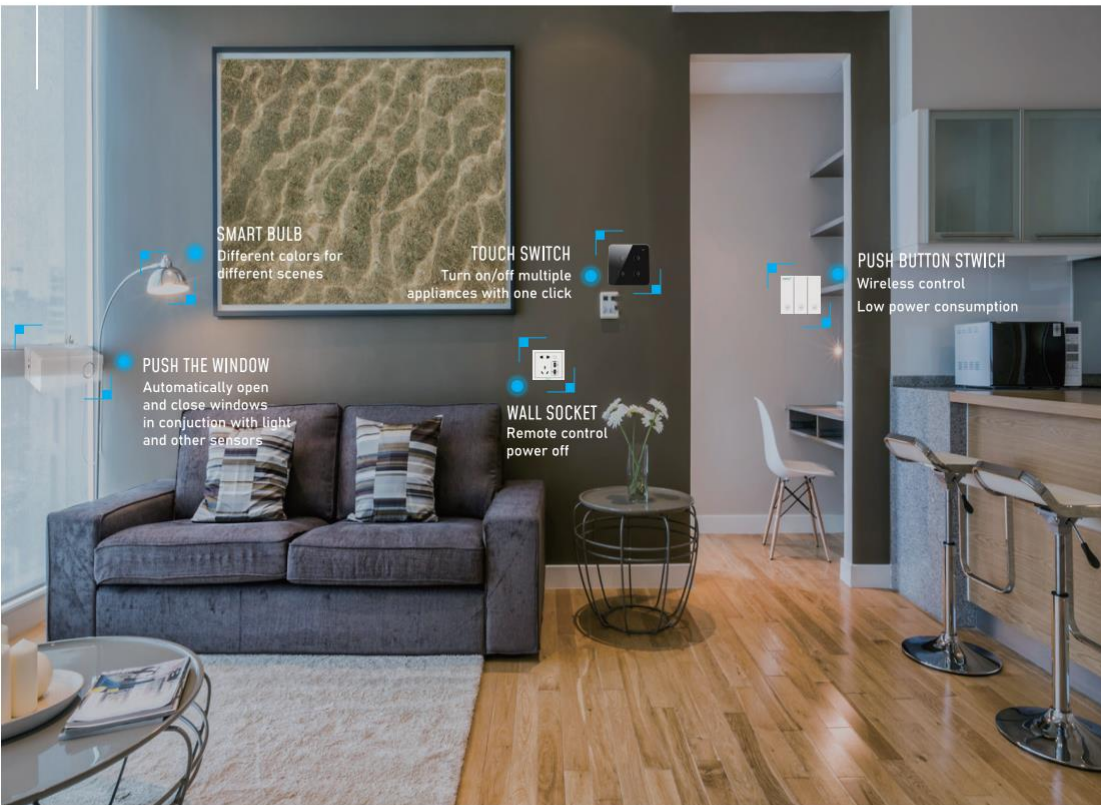

The switch of gas valve and water valve ensures the safety at home

LIGHT SENSOR

Fashion style | High decibel alarm

SMART ELECTRICIAN HOME APPLIANCE INTELLIGENCE

SMART BULB

Different colors for different scenes

TOUCH SWITCH

Turn on/off multiple appliances with one click

PUSH BUTTON SWITCH

Wireless control
Low power consumption

PUSH THE WINDOW

Automatically open and close windows in conjunction with light and other sensors

WALL SOCKET

Remote control power off

SMART HOME APPLIANCES TO CREATE A SAFE AND ENERGY-SAVING SMART LIFE

AIR SWITCH

Linkage with other sensing devices,
On and off the power supply,
ensure safe use of electricity

SMART CURTAIN

Wireless control | Power off hand pull
Super silent operation | High quality motor
Open and close on time | Built-in WIFI

SMART BULB

Timing Switch
RGB Color | APP Remote Control
Smart Linkage

PUSH THE WINDOW

Simple Design | Eye-catching Shape
Automatically open and close windows in
conjunction with light and other sensors

UNIVERSAL REMOTE

Scene Linkage | Multiple Modes
High quality motor
Timing On/Off | Built-in WIFI

SMART CLOTHES HANGER

Smart Clothes Hanger
Air-Drying Disinfection Sterilization

BUTTON SWITCH

Master / auxiliary / three scene in one panel
Customize the functions of
master / auxiliary control scene

SMART TOUCH SWITCH

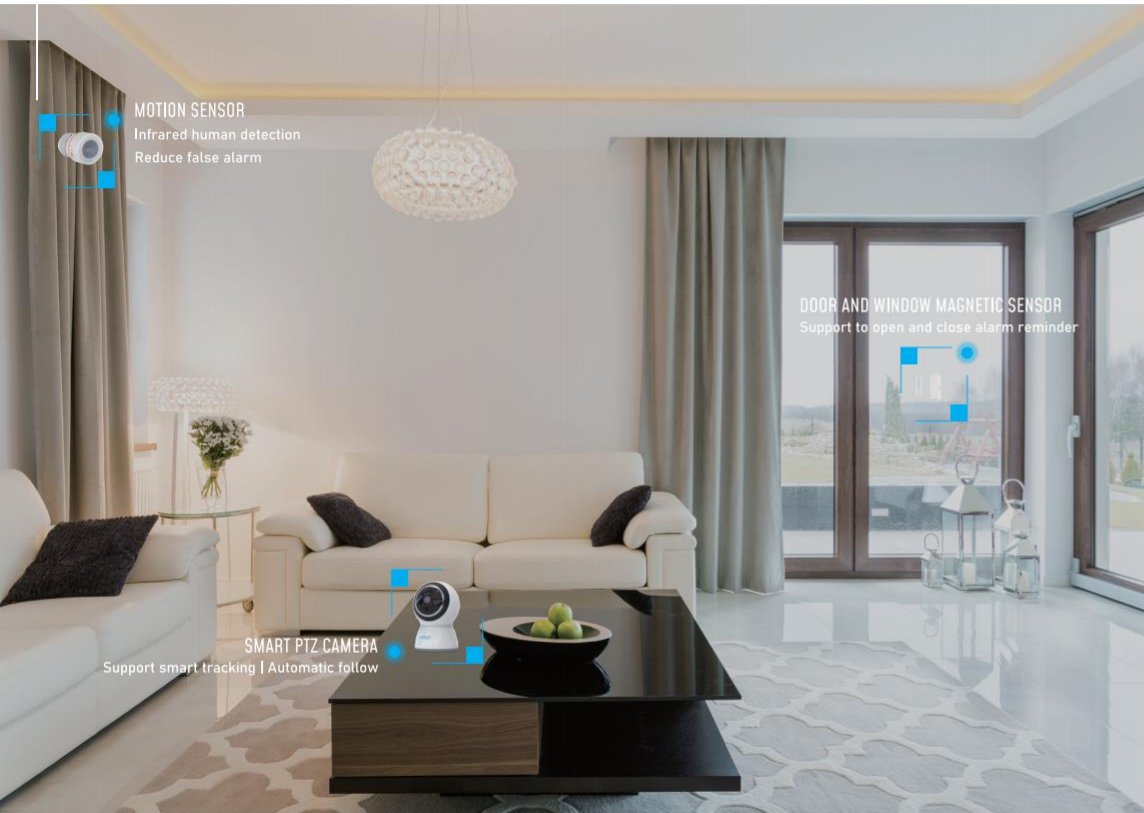

Voice Control | Timing Control
Smart Linkage | Glass Panel

WALL SOCKET

Timing On / Off | Circulation switch
Remote control power off
